

S12110 / S1224

FEATURES

- Supply voltage 230V AC, 115V AC, 24V DC/AC, 12V DC/AC
- Voltage tolerance AC +10% /-15%
- Voltage tolerance DC +=15%
- Power consumption 4.5VA
- Output relays 240V /5A
- Operating temperature -20°C to +65°C
- Storage temperature -40°C to +85°C
- Frequency range 20 kHz to 170 kHz
- Reaction time 10ms
- Signal holding time unlimited / limited when loop is permanently covered 10 minutes
- Sensitivity adjustable in 4 increments
- Loop inductance total loop plus connection wiring:50uH to 1000uH
- Loop connection wiring maximum length 20 meters, twisted at least 20 times per meter
- Size of housing 78 x 40 x 108 mm
