

TYRE KILLER

DESCRIPTION

TIRE KILLER is a hydraulic anti-intrusion system with powerful 47.5 cm high blades and a resistance of 200 kN for each blade according to SLW60DIN1072 specification. Capable of stopping vehicles driving at speeds of up to 80 km/h.

Features

Blade height	47.5cm
Blade thickness	2.5cm
Tyre Killer Length	3 and 4 meters
Distance between locks	20cm
Blade material	Galvanised steel
Overall dimensions	110cm wide x 67cm high and 3 and 4 m long
Rise time	2 seconds
Finish	galvanized paint
Resistance per blade	200kN
Power supply	220v
Unlocking free transit	Yes
